Experience

Albiorix Technology PVT LTD

Dec 2021 – July 2024

Software Engineer

Ahmedabad

- **MarketsEQ** || Next.js 13
 - * MarketsEQ is the layer between the product and the digital world. It acts as a liaison between consumer goods and customers, enhancing product experience and serving customers with a smart product assistant (OpenAI).
 - * Implemented functionalities such as system prompts and the ability to upload audio and get transcripts with graphs. Also fixed bugs in the existing project.
- **K-Chart** || React.js
 - * Developed features for managing comprehensive Patient details, including patient information, disease, reports, and payments. Implemented patient CRUD operations, filters, pagination, and infinite scrolling.
 - * Analyzed design requirements and recommended technical solutions to ensure project scalability, maintainability, and efficiency. Followed Agile Software Development methodology throughout the project.
- **Talent 500 Employer Management System** || React.js
 - * Designed and developed multiple sections, including job and customer stepper forms, and implemented PDF download and preview functionality. Managed development tasks and bug fixes to enhance system performance.
 - * Created new common components and hooks, and integrated REST APIs with unit test cases to meet evolving requirements.

INEXTURE Solutions LLP

Apr 2021 – June 2021

Apprenticeship

Ahmedabad

- Made customer end basic website
- Worked on small features and bugs as an individual contributor, understood end-to-end flows of all the services
- Learned new techniques, and it's applications in industry life.

Projects

Todo Manager || React.js, TypeScript, ... || [DEMO](#)

Aug 2020 – Nov 2021

- Created a simple To-Do List Manager where users can add tasks, mark them as completed, and delete them. Users can view all tasks or filter them based on their completion status.
- Enabled users to add new tasks with descriptions and due dates, mark tasks as 'completed', and delete tasks.
- Implemented the ability to filter tasks by 'completed' or 'pending' status, improving user task management experience.

Online Towing System || Android, phpmyadmin

Sep 2019 – Mar 2020

- Automated the vehicle towing process to improve efficiency for the traffic regulatory team and government.
- Developed an Android application for real-time management and tracking of towed vehicles.
- Integrated phpMyAdmin for database management to handle vehicle, owner, and violation records.

Education

B.Tech In Computer Science Engineering

Nov 2016 – May 2020

NSIT, Ahmedabad

GPA: 7.86

Science Stream

June 2014 – March 2016

Sarthak Vidhyalay, Ahmedabad

Certifications

Akash Technology : Basic understanding of React and React Js

Coursera: Introduction to JavaScript
